

HAPPY
[BERN]
LAB

Starting with WHO

We want to change
The way we start Conversations

we ask you **WHO** you are first, and hold the question about what you do, because we are curious about **WHO** you are as a human (what feelings, concerns, dreams you have) not what role you have in Society. We trust that the **WHAT** will emerge naturally from these kinds of conversations.

Everyone is a **HOST**
& a **GUEST**

Welcome home!

This is an invitation to:
Just show up for yourself, there
is no need to put on a show.

Make others feel like they are
at home, and treat this home as
you would like others to treat it.

Let go of the pressure to **DO**
- Practise to **BE** here before
you go.

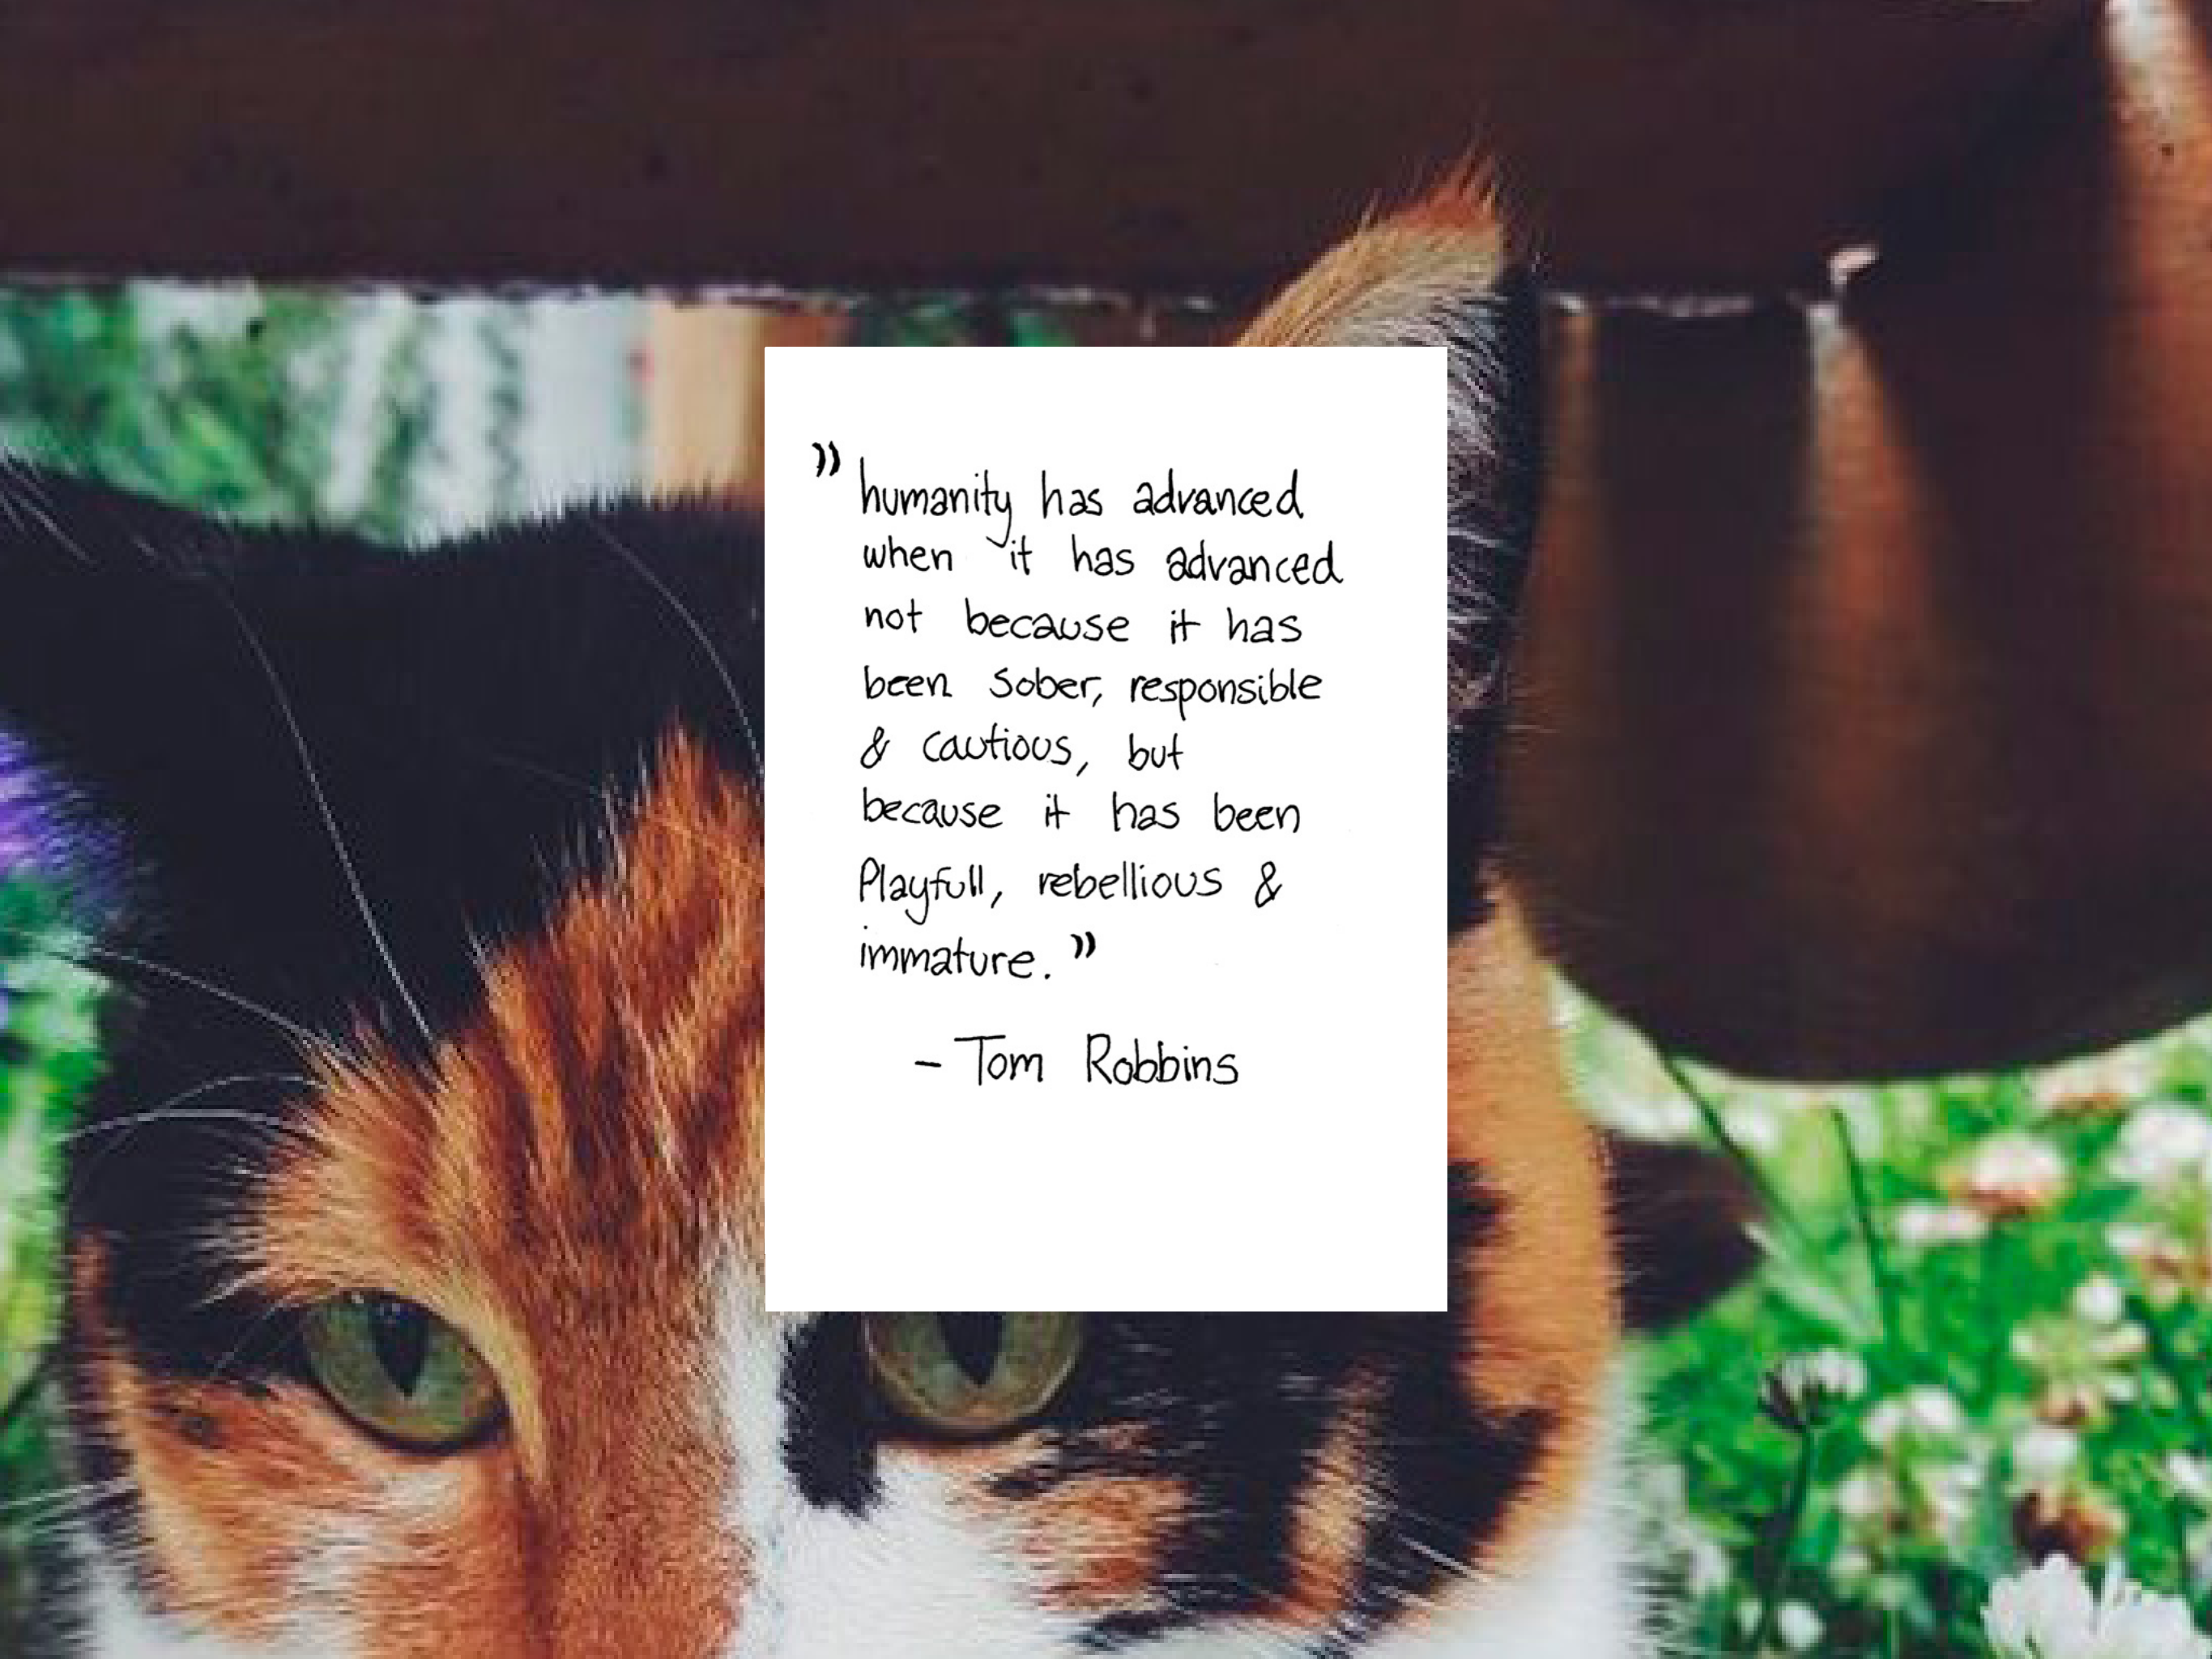

Learn and experiment with
how to hold space without
owning space.

Co-here 

Co-root 

Co-spire 

» humanity has advanced
when it has advanced
not because it has
been sober, responsible
& cautious, but
because it has been
Playfull, rebellious &
immature. »

- Tom Robbins

WHO WE ARE

We don't have any master idea for a happy planet.

But we are ready for some bold experiments.

And we want YOU to be a part of it.

WHAT IS OUR STORY:

In Fall 2016 a visionary philanthropist offered us significant resources to find new solutions for our planet.

So we met inspiring people all over the world and collected a lot of crazy ideas.

Then we found this house in Bern and knew this is where we start.

WHY A HOUSE:

1 happy house is 1 happy house.

Happy houses make a happy city.

WHY A CITY:

Where we live is where we influence,

where we have our friends,

where we want to grow old.

WHY BERN:

Because global change starts with us.

Bern is the capital of one of the richest countries: No external pressure, no internal incentive to change.

If it works here it can work everywhere.

HOW WE INVOLVE THE CITY

Love is the ultimate outlaw. Which is why we engage wholeheartedly

to celebrate health, wealth and happiness across their city.

Our door is always open for visitors.

WHAT HAPPENS IN THE UPCOMING MONTHS:

As you enter our place you are not a guest but a host, and a part of the house.

We have no agenda and no pressure. We take it slow and patient.

That gives us the opportunity of hazard and surprise.

We are open for craziness.

We have the courage to dive deep.

We use the opportunity to meet each other.

WHAT HAPPENS AFTER JANUARY 2018:

This house will disappear,

But it will pop up in many other places.

We will mobilize more investments in human collaboration technology.

1% GDP in Switzerland

And we are looking for new visionary philanthropist to take the next step together.

HOW WE SHARE:

We learn everyday and document our lessons which we make available open source.

We host ReTreats, write playbooks, go to conferences and give workshops to plant seeds of imagination.

This is our invitation for you to join our learning journey.
